Hello members, Can you believe the weather last weekend??? The weather changing so drastically it has affected our produce production. Our crops are not sure what to do ??? We are having our Slow Food event this weekend, we are glad that the bad weather has come and gone for now.

We went to Grizditch Farms in Hollister to get apples and we were so surprised to see what a nice place they had. We had gone to a CCOF/OFRF Christmas party and we remember having the best apple pie (and berry) and talking with the owners about the farm. They told us they do pie all year round. At the time I did not think too much about it but, after my last visit I have to say I was amazed at the amount of people stopping by to have a slice of pie! I picked up the apples and talked with a very nice man and he was telling me they were in the middle of making cider, harvesting Gala apples and making pies. I purchased 1 apple and 1 berry. I strongly recommend if you are going to be in the area, stop by and have a piece of pie or bring one home (you will be very popular). It is a treat! We also made a deal I would be back for the Fuji and Granny Smiths. They are not certified organic but are natural. They also do you pick apples and berries. We hope you enjoy them.

#### This Week's box

We have carrots, red leaf lettuce, T. D. Willey Yukon gold potatoes, cilantro, and apples from Grizditch Farms in Hollister, Tomatoes, pomegranates, herbs, and sweet peppers. We should have some arugula, granny smith apples and walnuts next week. We are looking forward to the fall greens.

Our season is coming to an end. With the rain and the cooler temperatures we are not getting the produce we are accustomed to. We will have enough produce for our regular CSA member through Oct. But after that we are thinking about doing a CSA box every other week with winter vegetables. Would you be interested? We would like your input. We have enjoyed the CSA very much and hope all of you feel the same way. Lets us know what you think.

Cheers,

Farmer John & Shelby
